More About our Company

Nature4Science, Inc philosophy is to provide the highest quality products at competitive prices. To accomplish our mission, we have strategically partnered with the growers and manufacturers.

All our products are planted, grown, harvested, & processed based on discussed and agreed upon specifications set by Nature4Science, Inc., technical personnel, and meeting GMP standards.

All products are tested in-house based on USP/NF updated methods and recorded on the certificate of analysis. Test results are also verified and certified by accredited U.S. laboratories.

We maintain a large inventory in Southern California and we are able to dispatch most domestic and international orders within a short leadtime.

*Nature*4*Science, Inc. was founded in January 2001, as a distributor and strategic partner to unique ingredient manufacturers including the #1 leading nutraceutical/pharmaceutical garlic (New-Gar®) and the #1 leading saffron extract in the US Market (Zaffronel®)*
